SUBJECT INDEX*

A

Abducens nerve palsy in Dilantin intoxication (Manlapaz), 73

Abnormalities, metabolic, of erythrocytes from patients with congenital nonspherocytic hemolytic anemia (Zinkham and Lenhard), 319

Abscess of liver, amebic, in six-month-old infant (Burnside and Cummins), 516

Acidosis, hyperchloremic, severe, of unusual etiology (Winters et al.), 15

Adolescence, problems (Kanner), 397

Adrenocortical hormones, potassium deficiency and, in etiology of metabolic alkalosis (Gamble and Cooke), 296

Albumin, dissociation of bilirubin from, and clinical implications (Odell), 268

Alkalosis, metabolic, potassium deficiency and adrenocortical hormones in etiology (Gamble and Cooke), 296

Allergic diseases, etiology (editorial), 801
and immunologic states, mechanism of antibody-antigen reaction and implication in (Najjar and Robinson), 777

Amebic abscess of liver in six-month-old infant (Burnside and Cummins), 516

Aminoaciduria, clinical significance (Chisholm), 303
in epilepsy (Choremis et al.), 593

Anemia, nonspherocytic hemolytic, congenital, metabolic abnormalities of erythrocytes from patients with (Zinkham and Lenhard), 319

Anoxia, neonatal, prolonged, without apparent adverse sequelae (Mabry), 211

Antibody-antigen reaction, mechanism, and implication in allergic and immunologic states (Najjar and Robinson), 777

Asian influenza, virus isolation in fatal human cases of (Blattner), 113

Audiologic screening, hearing responses and, in infants (Hardy et al.), 382

B

Bile duct, common, congenital cyst of, acute pancreatitis associated with (Gibson and Haller), 650

Bilirubin, dissociation from albumin, and clinical implications (Odell), 268
rebound, heme pigment and, following exchange transfusion in infants with erythroblastosis fetalis (Summer and Goulson), 30

Bleeding, intracerebral, spontaneous, in children, from cryptic vascular hamartomas (McDonald), 200

Blennorrhea, inclusion, trachoma and (Blattner), 405

Blood volume of infants: full-term infant in the first year of life (Sisson et al.), 163
premature infant during first year of life (Sisson et al.), 430

Books:
Cerebral palsy in childhood (Woods), 799

Mechanism of antibody-antigen reaction and implication in allergic and immunologic states (Najjar and Robinson), 777
Meningitis, ECHO virus type 9, epidemiologic, clinical, and laboratory features of epidemic of (Solomon et al.), 609
Metabolic abnormalities of erythrocytes from patients with congenital nonspherocytic hemolytic anemia (Zinkham and Lenhard), 319
alkalosis, potassium deficiency and adrenocortical hormones in etiology (Gamble and Cooke), 296
Metabolism, cortisol production and, in neonate (Migeon), 280
potassium, clinician and (Pratt), 216
Muscular dystrophy, pseudohypertrophic, heart in (Levin et al.), 460
Myocardial infarction in the perinatal period (Richart and Benirschke), 706

N

Neonatal anoxia, prolonged, without apparent adverse sequelae (Mabry), 211
deaths, study of causes (Ahvenainen), 691
hypoglycemia, symptomatic, associated with toxemia of pregnancy (Cornblath et al.), 545
Neonate, cortisol production and metabolism in (Migeon), 280
Nephrotic syndrome, congenital (Hallman and Hjelt), 152
Nerve palsy, abducens, in Dilantin intoxication (Manlapaz), 73
Neurocutaneous syndromes, congenital, in childhood: neurofibromatosis (Chao), 189
Sturge-Weber disease (Chao), 635
tuberous sclerosis (Chao), 447
Neurofibromatosis, congenital neurocutaneous syndrome in childhood (Chao), 189
Neurological and intellectual status of prematures at 3 to 5 years of age (Harper, Fischer, and Rider), 679
Newborn infant, development of Gaucher cells in (Bernstein and Shelden), 577
spontaneous rupture of esophagus in (Wiseman et al.), 207
News and Notes, 128, 257, 409, 534, 800
Ninth international pediatric congress (editorial), 805
Nonspherocytic hemolytic anemia, congenital, metabolic abnormalities of erythrocytes from patients with (Zinkham and Lenhard), 319
Not alone in a wilderness (editorial), 261
Nutrition, human, role for tocopherol in (Nitowsky and Gordon), 315
and infection (Dubos and Schaedler), 1

O

Oral phytonadione in neonatal hypoprothrombinemia (Shoshkes et al.), 80
Ossification centers, postnatal, seasonal distribution of initial appearance in hand and wrist of undernourished children (Dreizen et al.), 738
Osteopetrosis (marble bones), facial paralysis associated with (Welford), 67
Oxygen therapy, greater efficiency in (Brewer and Singer), 504

P

Palsy, nerve, abducens, in Dilantin intoxication (Manlapaz), 73
Pancreas, cystic fibrosis, diurnal serum triglyceride levels of children with (Kuo and Huang), 720

Pancreatitis, acute, associated with congenital cyst of common bile duct (Gibson and Haller), 650
Paralysis, facial, associated with osteopetrosis (marble bones) (Welford), 67
Pathognomonic symptoms for congenital central communication disorders in children (Mark), 391
Pediatric congress, ninth international (editorial), 805
Pediatric management of school phobia (Eisenberg), 758
Perinatal period, myocardial infarction in (Richart and Benirschke), 706
Phases of "transitional distress" in association with prolonged postnatal umbilical cord pulsations (Desmond et al.), 131
Phobia, school, pediatric management (Eisenberg), 758
Phytonadione, oral, in neonatal hypoprothrombinemia (Shoshkes et al.), 80
Pine oil poisoning, treatment by exchange transfusion (Tauscher and Polich), 511
Placenta (Dancis), 85
Pneumonia, giant cell (CPC), 658
staphylococcal, in children (Koch et al.), 473
Poisoning, lead (CPC), 102
pine oil, treatment by exchange transfusion (Tauscher and Polich), 511
Polyneuritis, acute (CPC), 521
"Poor protoplasm" (editorial), 677
Postero-oblique projections, use in excretory urography in infants and children (Jungmann), 752
Postnatal ossification centers, seasonal distribution of initial appearance in hand and wrist of undernourished children (Dreizen et al.), 738
Potassium deficiency and adrenocortical hormones in etiology of metabolic alkalosis (Gamble and Cooke), 296
metabolism, clinician and (Pratt), 216
Pregnancy in diabetic women, outcome of (Dekaban), 767; (Dekaban and Baird), 563
toxemia of, symptomatic neonatal hypoglycemia associated with (Cornblath et al.), 545
Premature infant during first year of life, blood volume of (Sisson et al.), 430
infants, hyperbilirubinemia in (Koch et al.), 23
Prematures, neurological and intellectual status at 3 to 5 years of age (Harper, Fischer, and Rider), 679
Pseudohypertrophic muscular dystrophy, heart in (Levin et al.), 460
Pulsations, umbilical cord, prolonged postnatal, phases of "transitional distress" occurring in association with (Desmond et al.), 131
Pyonephrotic kidney, spontaneous intraperitoneal rupture of, in infancy (Zaidi), 78

R

Reaction, antibody-antigen, mechanism, and implication in allergic and immunologic states (Najjar and Robinson), 777
Rhabdomyosarcoma of striated muscle origin in preadolescent children (Bowman), 620
Rupture, intraperitoneal, spontaneous, of pyonephrotic kidney in infancy (Zaidi), 78
spontaneous, of the esophagus in a newborn infant (Wiseman et al.), 207

S

School phobia, pediatric management (Eisenberg), 758
Seasonal distribution of initial appearance of postnatal ossification centers in hand and wrist of undernourished children (Dreizen et al.), 738
Septal defect, ventricular, surgery in, indications and contraindications (Neill and Taussig), 374
Staphylococcal pneumonia in children (Koch et al.), 473
Sterilization, formula (editorial), 124
necessary? (Gibson), 119
Striated muscle origin, rhabdomyosarcoma of, in preadolescent children (Bowman), 620
Strongyloidiasis (Huchton and Horn), 602
Sturge-Weber disease (Chao), 635
Surgery in ventricular septal defect, indications and contraindications (Neill and Taussig), 374

Syndrome, Budd-Chiari (Edwards et al.), 63
congenital nephrotic (Hallman and Hjelt), 152
Syndromes, congenital neurocutaneous in childhood. I. Neurofibromatosis (Chao), 189

T

Tocopherol, role in human nutrition (Nitowsky and Gordon), 315
Toxemia of pregnancy, symptomatic neonatal hypoglycemia associated with (Cornblath et al.), 545
Trachoma and inclusion blennorrhea (Blattner), 405
Transfusion, exchange, treatment of pine oil poisoning by (Tauscher and Polich), 511

Triglyceride levels, diurnal serum, of children with cystic fibrosis of pancreas (Kuo and Huang), 720
Tuberculin, role of, in detection of tuberculous infection (editorial), 541
sensitivity, experimental and epidemiologic basis for interpretation of (Palmer et al.), 413
Tuberous sclerosis (Chao), 447
Tumor of heart (CPC), 240
Tumors, chemical therapy of, approaches to (Nyhan), 337

U

Umbilical cord pulsations, prolonged postnatal, phases of "transitional distress" occurring in association with (Desmond et al.), 131
Undernourished children, seasonal distribution of postnatal ossification centers in hand and wrist of (Dreizen et al.), 738
Urinary tract infections in childhood, kanamycin in (Yahiro and Rosenthal), 744
Urography, excretory, in infants and children (Jungmann), 752

V

Ventricular septal defect, surgery in, indications and contraindications (Neill and Taussig), 374
Vessels, great, corrected transposition of (Gasul et al.), 180
Viremia, ECHO virus type 18, exanthem associated with (Medearis and Kramer), 367
Virus croup (Blattner), 793
ECHO type 18 viremia, exanthem associated with (Medearis and Kramer), 367
isolation in fatal human cases of Asian influenza (Blattner), 113

W

Wrist of undernourished children, seasonal distribution of initial appearance of postnatal ossification centers in hand and (Dreizen et al.), 738
